#### WHAT THE THREE ZIGZAG BOOKS CONTAIN.

146 Full-Page Engravings.

91 Half-Page Engravings,

193 Smaller Engravings.

Nearly 1000 Pages Reading Matter.

The elegant engravings convey to the mind facts in history in a pleasing and impressive manner. Following is a more detailed description of each volume:

**Zigzag Journeys in Europe.** Given for one new name, and 12 cents additional.

A few years since a teacher of boys on board a steamer in New York for a trip of pleasure and study in England, Scotland, Belgium and France. The teacher's name we will call Lewis, and two of the boys we will call Wally, Winn and Tommy Toly.

How they planned for the trip, the description of the steamer, the experiences of the sea-sick boys, and the events all the voyage are all vividly told. Tommy Toly is a bright but thoughtless boy, and meets with many amusing mishaps.

As they traveled from place to place, they learned the great events of history, standing on

the very spot where they occurred. As you read this book you seem to be one of the party, with us on the events of the past, rather than to read about them.

Among the many stories told the class by Master Lewis we can only mention a few: William the Conqueror, Robert of Normandy, Joan of Arc,

etc., etc.

**Zigzag Journeys in Asia.** Given for one new name.

"Robinson Crusoe" does not lose its power over the young. This edition is unabridged, and contains a life of the author. It is illustrated. Given for one new name. Postage and packing, 12 cts.

We offer it for sale, including the payment of postage by us, for \$1.

**The Knockabout Club.** By C. A. STEPHENS. Given for one new name, and 12 cts. additional.

This book gives the account of the adventures of six young men in the wilds of Maine and Canada. They organize themselves into a club, choose a leader and start from Boston in July on six bicycles. The story of their adventures on "The Knobabout Club" as they roamed through the country where bicycles were unknown, is intensely interesting. They had also many narrow escapes. They camped out and frequently met with the early settlers in the country, and from them learned the story of the pioneer life in Maine and the dangers encountered with Indians and wild beasts. They left their bicycles and took long journeys through barren deserts and arid steppes to River du Long on the St. Lawrence, thence by a mail on the Saguenay River to Lake St. Jean and after this to Quebec, and from there home to Boston. Many interesting stories, fifteen in all, are told by the boys and their guides, some of them descriptive of the places visited, others of adventures experienced by members of the Club. The cover of the book is printed in beautiful colors. The book is printed, tinted, and contains eight full-page and many smaller engravings. This is an intensely interesting book of adventure. Given for one new name and 12 cts. additional. Postage and packing, 21 cts. We offer it for sale, postage paid by us, for \$1.50.

Elsie's Whilhood.

These books are stories of refined home-life for girls, and no young lady can read them without being made more attractive.

The scene of the narrative is in the home, society, and the family described as typical of the middle classes of life growing out of the events of the war. We have here the charms of domestic life presented by a facile pen—a picture of high refinement and solid Christian aim. Each volume is complete in itself, the whole following the development of a winsome character from girlhood to womanhood. We especially commend these volumes. journeys they kept during their visit to Washington. "Sewing and Reaping," given the story of the help Gypsy gave her brother who was struggling against college life temptations. It is a most interesting game for both old and young, for lawn or parlor. There are no rings or hoops, some large and some small. The game is to throw these over the standard or target-post at a given distance. The target-post is handsomely striped, and has a joint so it can be packed into the box when not in use. **Canary Songster.** Given for one new name.

This is a wonderful bird. It looks exactly like a real Canary, both in color and size. Its song is a perfect imitation of the best living Canaries. If you were not aware that it was not a real bird, you would most certainly exclaim, "What a charming singer you have!" To produce the music you first fill the bulb with water, then blow through the rubber tube. The little songster at once begins a most charming tune, at the same time keeping time to the music by moving its little bill and tail. In addition to being a most pleasing toy for the children, it is highly appreciated by the ladies, who use it to teach their birds to sing. They sing as clear, and sweetly as the best living Song Birds. Are substantially and handsomely made and will not liable to get out of order. It suspends the Bird Organ, and when used near a bird, will induce it to start up its best notes immediately.

## A GREAT OFFER!

## A Watch and Chain Given for Only Three New Names.

The Improved Waterbury Stem-Winding Watch and Nickel-Plated Chain.

they are suspended  
time - their price.

We have twice inspected the factory and have witnessed the construction of every part of the watch, from the most delicate pinion to the moving watch. We have seen and admired the wonderful accuracy of the machinery, the skill of the workmen, and the fidelity of the inspectors.

Every wheel and pinion undergoes a rigid inspection under a microscope. Nothing short of perfection is allowed to pass.

## How the Watches are Tested at the Factory.

When the Watches are finished they are taken to the Testing Room. Here a large number of adjustable racks, in which the watches after having been wound up are placed. For six days these watches are made to run in different positions. The rack swings on pivots, so that the watches

are run in a perpendicular position, at an angle, then on their faces and last on their backs. They are inspected each day. The watch is not run up to the inspector's standard is returned to the work-room again.

## How we Test the Watches.

Before we send out the watches they are not only tested at our office, but are regulated very finely.

It is very interesting to see a spectrum of two or three hundred of the Waterbury Watch ticks in one minute. All make the same story—*time*.

MARLBOROUGH, N. H.

Sept. 22, 1851.

Gentlemen.—We have decided to renew the contract made with you last year.

Until further notice however, we will furnish the style No 4 Companion Sewing Machines to you so that we can sell them your subscribers for \$25. The price of this machine is \$45. We make this discount of \$20.00, which we consider the equivalent of the extra charge to agents, &c., to your subscribers only. Knowing the immense circulation of "The Youth's Companion," the company have decided to limit the trade for the manufacture and distribution to the public. We must, however, reserve the right to cancel this agreement in localities where the machine may have become too popular, and where we have reason to fear that our rights will be invaded. Our facilities are so much that we shall be able to fill all orders promptly on receipt of the same.

Respectfully yours,

C. H. TAUNTON, President.

Among the valuable improvements on this machine we mention the following: Improved Self-Setting Needle, Loose Balance Wheel, for winding bobbins without running machine, improved Safety Shuttle, Improved Stitch Regulator, Improved Take-up, and many other improvements.

MARLBOROUGH, MASS., Sept. 23, 1851.

PERRY MASON & CO., BOSTON, MASS.  
Dear Sirs.—I am well satisfied with the Companion Sewing Machine. It gives me great pleasure to recommend it. 16 weeks past, and, to my directions so plain, and to the point, that I learned to run it in a short time without the aid of a teacher.

Yours truly,

LUCAS M. BARKER.

FOR TWENTY-FIVE DOLLARS  
we will deliver, freight paid, to your nearest depot, at any point east of Omaha, one Companion Sewing Machine, No. 4, same as seen in the engraving, Walnut Top, Two Drawers and Drop Leaf. We also give the extra which go with first-class machines.

### AS A PREMIUM.

We offer the Companion Sewing Machine for only twenty-nine new names. If you are unable to secure the entire number of new names, we will allow each new name sent to count as 55 cts. towards the purchase price.

On receipt of stamp we will send you the Illustrated Companion Sewing Machine Instruction Book and other information describing the machine in detail.

### THE COMPANION SEWING MACHINE

not only contains all the latest modern improvements of value, but it has many features of its own which are invaluable.

The Grand Characteristic of the Companion Sewing Machine which makes it more desirable for family use than other machines is its

### WONDERFUL SIMPLICITY.

It is true there are many more excellent sewing machines of different makes, but there is no machine of any style which will compare with the "Companion" in this most important point—SIMPLICITY OF CONSTRUCTION. This is one of the most valuable features of the machine. We have used up all manner of these cameras, and then discovered satisfaction.

With H-holes girls can sketch any landscape, or any object both near and far, in a few moments. It does not require previous practice. The Camera is 8 inches long, 5*1/2* below it we show a diagram that will

make it more desirable for family use than other machines.

### THE OPINION

of those best qualified to judge is that the Companion Sewing Machine marks a new era in the history of the Sewing Machine trade. The simplest, other things being equal, is the best. The best always wins.

### Hankiechief and Glove-Box. Given for one new name.

These Boxes are very attractive Premiums. They are very ornamental and useful. Every girl would look very beautiful if they made a part of its furnishing. They are covered with neat cloth, elegantly ornamented with hand paintings of

roses, daisies, and forget-me-nots. Given for one new name. Postage and packing, 15 cts.

We offer them for sale, including payment of postage by us, for \$1.

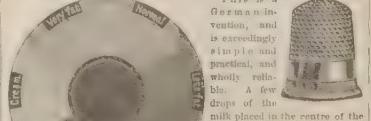

### Six Table-Mats, No. 0. Given for one new name.

These Mats are ornamented with a floral centre. There are six in the Set, two of each size. Given for one new name. Postage and packing, 12 cts.

We offer them for sale, including payment of postage by us, for 75 cents.

### Heeren's Milk-Tester and Solid Silver Thimble. Given for one new name.

This is a German invention, and is extremely simple and elegant, and wholly reliable. A few drops of the milk placed in the centre of the tester will at once assume the color corresponding to one of the colored sections, on which are printed Cream, Very Fat, Normal, Less Fat, Poor, Very Poor. We guarantee satisfaction. It will be of great service in every family. The farmer, moreover, may with it test the effects on the milk of different kinds of feed. We offer it, and a solid silver thimble, for one new name. Postage and packing, 6 cts. We offer the two for sale, postage paid by us, for \$1., or each separately for 50 cents apiece.

### Celloid Collars and Cuffs. One collar and pair of cuffs given for one new name.

Among the most recent, and perhaps the most successful, uses to which celloid has been applied are collars and cuffs for ladies' and gentlemen's wear. They cannot be fixed from fine linen, merely laundered. We have worn both daily for several weeks, and have kept them looking as fresh as new, by an occasional use of soap and water, or better, ammonia diluted, or soot and water mixed, and applied with a sponge or a brush. We give one collar and pair of cuffs for one new name. Postage and packing, 15 cts. Prices: Turned-down collar, \$8 cts.; standing collar, 25 cts. cuffs, 50 cents per pair. Postage, 5cts.

The Excelsior Platter and Solid Silver Thimble. (Patented May 13th, 1873.) Given for one new name.

This Platter consists of a rectangular frame, made of a single piece of metal. In the top are transverse parallel slots equidistant from each other. The edges of the slots are bent down at an obtuse angle, so as to form lips across each slot, the rough edges holding the material and preventing it from slipping. Goods plated in this machine will stay in shape much better, and can be plated quicker than in any other machine. Some of our friends who have used this Platter swear in that it excels all others in practical use. It costs less than one-half as much as the ones we sold last year. The Solid Silver Thimble we offer with this Platter is the best quality. Please name the size you want. The sizes vary from No. 5 to 10, inclusive. Both given for one new name. Postage and packing, 12 cts. We offer the Platter for \$10 cts. Thimble for 50 cts. Postage paid by us.

### Silver-Plated Forks and Spoons.

We offer a new line of silver-plated forks and spoons, which are especially durable and attractive. The process of manufacturing may be interesting, as it will show how very durable these goods must necessarily be. The base metal is fine steel. After being formed into shape by powerful machinery, the spoon or fork is then polished, tempered and subjected to a coating of tin. It is then plated with nickel silver, after which it is silvered with pure silver.

**The Companion Organ,**  
**PRICE ONLY TWENTY DOLLARS,**  
**GIVEN FOR TWENTY-FOUR NEW NAMES.**

On receipt of stamp we will send our Illustrated Catalogue of Companion Organs, costing from \$20 to \$100.

This cut illustrates the "Companion Organ," which has been manufactured especially for us. It has one set of reeds of three and one-fourth octaves, or forty-one notes and a right knee swell. We commend it as a most superb instrument for home or chapel use. Each Organ contains a genuine "Carpenter Action." The maker of this organ had more than sixteen years' experience in building organs actions. His reputation for making

superior quality of tone, thorough workmanship, and durability. E. P. Carpenter's Trade Mark is stamped on every action.

**Description.**

It is most thoroughly built, elegantly finished, and embellished with gold scrollings of the most unique design. The back is finished the same as the front. Its appearance is beautiful, viewed from any direction. It contains one right knee swell, but no stops, yet it has as many reeds and as much power as some organs said to contain more than twenty stops. Some people suppose that an organ having a large number of stops is especially desirable. The fact is, an organ with many stops ought to be regarded with suspicion, as seven to ten out of the twenty are probably all that are genuine, while the balance are worse than useless, for they confuse the player and damage the instrument.

**Its Capacity and Power.**

The Companion Organ has sufficient compass for the rendering of all Sunday School music, popular songs and choruses, and is especially adapted for home use, the schoolroom, hall, or chapel.

**It is Portable.**—It is so constructed that it can be made to occupy small space, thus making it the most portable organ yet produced.

**Who Should Own It.**

We believe in music for the home. Families that cannot afford to pay for a costly organ will find in the Companion an organ which will meet all requirements. With it, and the Instructor, children can readily learn to play and sing.

**GOOD TESTIMONY.**

ATLANTA, Ga., Aug. 21, 1881.  
 We were well pleased with the "Companion Organ" our Sunday School bought from you.

We consider it all and more than you say it is. It is a perfect "Daisy" of an organ.

Very respectfully,  
 D. W. UNDERSTOCK.

LINDENWELL, Vt.

WILL NOT SUPPLY ALL THE READERS OF THE COMPANION WITH A COPY OF

KENT'S NEW COMMENTARY.  
A MANUAL FOR YOUNG MEN.

It affects us much satisfaction to know that our efforts to give to the public the NEW COMMENTARY have been rewarded by a wide circle of young men and boys throughout the land who have had the privilege of reading it. We have filled orders for copies in every State and Territories, and have received many expressions of thanks from our patrons who have taken special pains to express their gratitude to us for having placed in their hands a book so well prepared, and for the great value it will be to the young men.

We introduce herewith a few letters of commendation from some of the most prominent young men who have been "brought up" on the simple fact that when a boy buys a book at full price, and has the right to expect a full refund if he does not find it worth while to keep it, he is entitled to an undiminished endorsement of its worth, to the best of evidence, and a guarantee of its real value to the class of young men for whom it is intended. We are fully confident that not a father or a mother in this country would fail to secure a copy for any son or daughter, were they to be told the price, and we trust they will have to be told the price.

The principles therein laid down are the principles which have made the nation great. General Grant, our beloved President, was actuated in his boyhood days, and throughout his life, by the same spirit of self-sacrifice, of self-denial, of strict living, a spirit which will live forever. Every young man who wishes to make the most of his opportunities, and to be a good man, will do well to study them as long as they live.

**Valuable Testimonials from the best Judges  
Endorsing Kent's New Commentaries.**

From President Q. E. MASON, D. D., Iowa.  
Your way of educating every man by pertinent and striking examples, so largely new to readers, is most commendable. I heartily endorse your work, and hope for the young, and he has had no liberal education unless you prove to be the man. I hope you may.

From Dr. J. C. HARRIS, Boston.  
Kent's the genial soul and touches of humor are attractive; its healthy sentiment, without cant or formality, is the best kind of education. I heartily endorse it, and those who are willing to work and struggle in life are most healthful.

From PROF. A. C. PERINSON, Principal of Phillips Exeter Academy, Exeter, N. H., Nov. 10, 1880.

G. R. KENT, Eng.—Dear Sirs—During the past year the pleasure I have derived from the reading of your "NEW COMMENTARY" is beyond my power to express. I have seen nothing like it in the market. It is a book that stands in the same place that is found in this little book. The book is well written, well printed, and well bound. It is a good book, and its popularity is destined to be great. We are sending you a copy to show young men how to make the most of themselves in every station and every calling.

From a distinguished scholar and writer,

REV. WASHINGTON OLADDEN, for many years one of the most popular preachers in Springfield, Mass., July 24, 1880.

My DEAR Sirs—I have read your "YOUNG MAN'S GUIDE" with much interest, and your little book sufficiently to be satisfied with it. I am sure it is good, but that it will be practically helpful and stimulating to the young man who reads it. It is likely to be.

Your views of life, as far as I have been able to gather from your book, are excellent, and I heartily endorse your advice to young men to go to work, and to work hard, to accumulate money, to stimulate young men to industry and courage and perseverance. Thank you all success.

This book is supplementary to the Manual for Young Men recently issued, and is sure to meet with like favor, —includes a large amount of fact, argument and illustration, —is written in a clear, forcible, forcible style, —and in an original and suggestive manner. Its wholesome advice should be heeded by our young women. —*St. Louis Herald Patriotic.*

We have not for a long period passed upon a more appropriate book than the "New Commentary for Young Ladies." —*Chicago Inter-News.*

Sad, Indeed!—The trade and unluckily death of our beloved President, Abraham Lincoln, of Springfield, Ill., should be a lesson to every young lady, as well as to any other mortal, to be a good Christian. The character of any young man should be well known before giving him unlimited confidence. —*St. Louis Herald Patriotic.* —A very young lady to read Kent's New Commentary for Young Ladies. —It is timely, and will save many hours from the work of reading, —and will be a great help to the young reader. —Only costs fifty cents, postage paid. It is worth its weight in gold. —*North Western News of Daventry.*

From the distinguished scholar, author, and lecturer,
